WORK TO BEGIN ON I-393 BRIDGE OVER RAILROAD IN CONCORD
TRAFFIC WILL BE RESTRICTED ON ONE LANE IN EACH DIRECTION

The New Hampshire Department of Transportation announces construction work is scheduled to begin Monday, July 8, 2002 on the Interstate 393 Bridge over the B&M Railroad and the southbound on-ramp bridge over Constitution Avenue in Concord.

This bridge rehabilitation work will require traffic on I-393 at the B&M Bridge to be restricted to one lane in each direction. Some delays can be expected.

This project, which begins at the intersection of I-393 and North Main Street and ends approximately 1,300 feet west of Exit 2, includes the rehabilitation of seven bridges and pavement on I-393 in Concord. Additional work will include improvements to drainage and high-mast lighting, and the replacement of guardrail and signs.

R.S. Audley, Inc. of Bow, New Hampshire is the general contractor for the \$6.1 million project, which has a final completion date of July 2003.
